

## Microsoft Activation Scripts (MAS)

<https://massgrave.dev>

Open-source Windows and Office activator featuring HWID, Ohook, TSforge, KMS38, and Online KMS activation methods, along with advanced troubleshooting.

### How to Activate Windows / Office?

#### Method 1 - PowerShell (Windows 8 and later) ❤️

##### INFO

##### 1. Open PowerShell

To do that, press the Windows key + X, then select PowerShell or Terminal.

##### 2. Copy and paste the code below, then press enter.

```
irm https://get.activated.win | iex
```

Alternatively, you can use the following (this will be deprecated in the future):

```
irm https://massgrave.dev/get | iex
```

1. You will see the activation options.  
Press [1] HWID for Windows activation.  
Press [2] Ohook for Office activation.

##### 2. That's all

#### Method 2 - Traditional (Windows Vista and later)

Click here to view

1. Download the file using one of the links below:  
<https://github.com/massgravel/Microsoft-Activation-Scripts/archive/refs/heads/master.zip>  
or  
<https://git.activated.win/massgrave/Microsoft-Activation-Scripts/archive/master.zip>
2. Right-click on the downloaded zip file and extract it.
3. In the extracted folder, find the folder named All-In-One-Version.
4. Run the file named MAS\_AIO.cmd.
5. You will see the activation options. Follow the on-screen instructions.
6. That's all.
